- The first sentence refers to the pharmacy industry's prescription revenues in 2023, not 2022.

Page 64

- The last paragraph misstates Kroger Specialty Pharmacy's 2023 ranking. Per Exhibit 51 (page 84), it is the ninth-largest dispenser of specialty drugs, not the sixth-largest.

Exhibit 51 (page 84)

- For Lumicera Health Services, prescription revenues for specialty drugs were \$1.5 billion, rather than the \$1.4 billion figure shown in the table. Revenues increased by 37% compared with 2022.

- The last sentence on the page misstates the term of the Elevance Health/CVS Health agreement. Per page 9 of [Elevance Health's 2023 10-K filing](#), this agreement extends through 2025 (not 2024).

Exhibit 261 (page 428)

- The source for the "Upper Limit for MFP as % of non-FAMP" figures was inadvertently omitted. The information in this column comes from the following publication: Greenwalt, L., [How the Inflation Reduction Act is Changing the Rules in Life Sciences – Pt. 1](#), IQVIA, September 29, 2023.
