TOTAL	\$ 12,192,304,547	\$ 16,245,304,800	\$ 19,290,459,716	\$ 24,311,612,555	\$ 29,948,773,738	\$ 37,993,805,503	\$ 43,912,414,181

*Unidentified - Sales that have been reported, but inadequate information in the transaction leads to the sale not being attributable to a specific covered entity.

Source: 340B Prime Vendor, August 12, 2021

Note: These sales data are provided by the 340B Prime Vendor Program and do not capture the entire universe of 340B Program sales (e.g. the Prime Vendor Program does not collect all direct sales). The Prime Vendor Program was established pursuant to section 340B(a)(8) of the Public Health Service Act for price negotiation, distribution facilitation, and other activities in support of the 340B Drug Pricing Program. It is managed by Apexus through a contract with the Health Resources and Services Administration.

These figures are accurate as of August 12, 2021. The sales data provided is a culmination of transactional data captured by the Prime Vendor Program at a given point in time. The totals reflected in this chart may change, as the 340B Prime Vendor is constantly reviewing and updating the data as transactions occur. There are times when adjustments to invoices are made impacting the total sales reported (i.e., a return of product which resulted in a decrease in the sales volume). In addition, the reporting of data has improved over time, which may reflect the various increases over time.

Entity organizations are defined at section 340B(a)(4) of the Public Health Service Act.
